## Covid-19 Disinfecting Procedures

For events that will take place during the threat of Covid-19, GNFA will be taking extra precautions for the safety of staff, exhibitors, and show officials. We will disinfect buildings with an EPA approved disinfectant daily during each event day in the show arenas. Barns and outdoor pens will be sprayed before the event move in. Please note on Addendum #1 that there will be a \$150 per arena day fee to offset the cost of application.

Thank you for your patience as we work through these tough times.
